Chinese Labor Not Permitted in the Improvement of Cemetery Lots

San Francisco Oct 36—A strict enforcement of the state constitution has recently caused a ripple of meriment to run through the city hall. It appears the city has berelofore granted piots in the city cemetery to various Chinese Organizations for burial of their dead. On obtaining a piat it has been the custom of the Mongoli ans to fence it in and make other improvements. The other day a Chinese company began improving its plat when Superintend ent Green ordered work to cease. He held that the constitution prohibits the employment of Chinese on any public work either directly or indirectly and as the city cemeter, is public property long led Mr. Green to the onclusion that Chinese cannot employ Chinese in the improvement of their grounds out there. He told the edestical he had no objection to the employment of whits men or their work. Green is construction of the constitution has been reported to the board of health and the opinion of the city and county attorney will be solicated.

longor Oct 26—The Parnell commission again listened to Attorney General Webster s presentation of the Timer case to day. I he speaker continued to reolfe a catalogue of outrages supposed to be traceable to the members of the league and the quoted from the speeches of D lien and ether 1 ar nelities to prove their support of the plan of campaign. He dealt in succession with a series of interances made by William O Brien Cully Cox Kenny and Matthew Harris, to show their sympathy with the outrages, and he intimated his intention to deal at length with the violent orations of the league members made in County Clare during the years 1885 1886 and 1887.

At this, Presiding Justice Hannen's patience seemed to be exhausted and leaning forward, he asked the attorney general if he did not think he had already given sufficient indications of the line of argument he in tended to adopt.

The attorney general replied that he must deal with all the Irish counties behad picked out as affording a most striking proof of the character of the leagues agitation. He quite understood Justice Hannen's hint and he was desirous of adopting any practical suggestion which would enable him to shorten his remarks.

The attorney general concluded his remarks by stating that some of the men who actually participated in the outrages would be called us winesses, and would tell what moneys had been paid to them and how the crimes they were hired to commit, were ar ranged. Adjourned until Tuesday.

THE GREATEST BUIL OF THE CAM-

The greatest 'bull of the compaign thus far is John Bull in shape of Lord Sackville West the British mini ter at Washington Talk about Blaine's Buichard—why Bur chard wish tacircumstance to the mis-chief that Lord Sackyi has build has wrought tumbled clumedy into the republican web so late in the compaign that he hadn't time to work much damage but Sackfille a but in the hands of his republican termentors has full ten days before him. During that time the republicans will have time to drive this English bull through every den ocratu fence in the doubtful states and the doubtful states contain the largest propertion of the Irish American voto of the country. The democracy have all along been telling the Irish Americans that Cleveland was not a free trader that the Mills hill did not mean free trade that England was not in favor of Cleveland's election and that Cleveland with not friendly to the English government in the fisheres dispute and quoting his retairation yell as proof of his sincerity. Lord Sackville's built nowever, bellows forth the truth that Cleveland is only playing a part to help his election that he is really very friendly to England, and will throw off his mask after election. The democracy cannot call this a campaign lie, because Lord Sack ville acknowleges the paternity of the builthey cranot call Sackville a luar, they are reduced simply to curving bim for a meddle-some fool. The population purty armed with this Buckville correspondence can go before the Imah-American vote of this with that quick perception, and prompt ac-tion for which he is famous used this letter with tremendous effect in his speech to the Irish American voters of New York on Thursday night, and before Saturday night the Sackville correspondence and Blaine: speech will be scattered as a campuign doou ent broadcast through the doubtful states and in every great city where there is a large Irish American vote

If Cleveland was smart he would have in stantly taken the Suns advice and given Lord Sackville his walking papers. Then he could for the second time have posed as the great North American tall twister of the British Lion but he is not quick and bold enough for this and so the Sackville bull will continue to make the air reverberate with his bellowings he will continue under the proddings of the republican bull punchers to charge the democratic fences in the Ir sh American districts from Boston to San Francisco The voter will look at the Sackville bull branded with the Sackville crest by Sackville sown hand and he will If this English minister who has the ear of the president's secretary of state acconfident that Cleveland as only playing a port that he is in his heart a member of the English party in America not only in respect of free trade but in the matter of fishermens rights why then I will vote for a republican who belongs to the American party of protection for labor, and fisher men's rights a party mat practices home rule at home and throws up its hat for home rule abroad. This weapon will very proba-bly club Cleveland a cause to de th, and will further satisfy Blaine that he was at need less pains to import a photograph of an English ass for his American fliends since be not only can buy Lord Sackville a picture in America, but can show his friends the original. Burchard was a Yankee bull but Lord Sackville is an English bull captu ed by a Yankee trick

The letter written by Lord Sackville West Brill h minister at Washington to a suppositions Anglo-American critizen of Pomona Cal was published in our lele-graphic columns some days ago. The letter has made a great stir all over the country,

presidential contest. This letter homon isos very well with the column of extracts from the British press printed on another page of THE ORIGINAL SIAN to day

It is not improbable that far stratte copies of this efter will be produced by hundreds of the sand. It mig the next ten days and circulated a lover tile United States.

ARGINENTS BY MINLER TURFRS

Thomas Dolin the great woolen manu facturer of Philidelphia is working day and night for Harrison and so is John Flynn night for Harrison and so is John Fijan the great kin tight is belief of Troy N Y. The argument of the miscocate of the Mills bill on which the reference is that the manufacturer is to be introduced to the the foreign markets at the expense of the wool grower whose protection is entirely the foreign markets at the expense of the wool grower whose protection is entirely swept away by the additisation of free wool and the factory man is to have steady work all the year round while his employer's finding a foreign market to dispose of the product. This argument these weelen manufacturers answer by asking how a great merchant carrying a stock of woolen goods for which he is indebted to a greater or lesser axtent can derive any benefit from a mean axtent can derive any benefit from a mean for which he is indebted to a greater or lesser extent can derive any benefit from a measure that has or will have the effect of shrinking the value of his present stock from 25 to 35 per cent. Every man who handles labrics and artiples made of wool is always owing somebody else for a lirge portion of his stock. Now these dry goods men clothing desiers, place and woolen goods men and hat and cap desiers, in order to pay their debts, must make sales, and to continue business must meet the market in face of lirely competition, and any sudden and sweeping drop in prices, coursed with the advent of new competitors in the advent of new competitors in their home markets causes an im-mediate shrinkage in assets without

storing with these promises. Mr. Flynd asks the advocates of the Mills bill: "How is the dry goods man, cloffing dealer, piece and woolen goods man, hat mad can dealer, or the country merchant who carness line of goods for which he is in debt likely to be af fected by the proposed tariff reduction on wool and woolen goods?" He answers that the passage of the Mulis bill would quise a shrinkage of 30 per cent in woolen fabrics by the reduction in the tariff and the influx of cheap foreign goods and the woolen dealer would be found with "0 per cent of assets to pay 100 per cent of liabilities. Again if the manufacturer and the dealer in woolen fibrics suffers by shrinkage in the value of his present stock of course his workingmen will suffer by a corresponding reduction wages his income will shrink his little Operty become reduced in value his means paying off his mortgage curtailed when a home market is surrendered to a foreign competitor. Of course if the employer the munufacturer, suffers the employe must suffer too when the coose that lave his solden eggs ha its neck wrong ly a ho tile lariff or it best sets on its a rich moulting its feathers and never seeking its nest

The republicans of Oregon are making a The requoneans of Oregon are making a notable in party tacties. What is wanted from this time to election is not wind but work not prades and speeches but a tre-ful piper-and princil c invass of every election precinct. Money spent during the next ten days in parades and public meetings is money wasted This money should be em joyed in getting out a full vote on election has There are voting places in Oregon—in Baker county and elecwhere—where voters have to travel from ten to fifteen even twenty miles to cast their ballots If the should be stormy these republican voters reposing in full confidence of victory will not vote unless special panns is taken to get them to the polls. If means are provided to take them to the polls and back most of these apathetic voters can be got out otherwase the republican vote in many places will show a greatfulling off from the June vote The republican clubs in this county ought to do nothing for the next ten days but organ

ze themselves into local canvassing committees to get out a full rote. There should be plenty of trustworthy ticket-holders on elec-tion day and there should be plenty of teams provided to bring distant or cold spir-ited voters to the polls. The time for sneech making is long past. The spring campaign exhausted the power of stump speaking, the press has kept the facts and arguments con stantiy before the people and will continue to do so until the day of election. What is wanted now is to break up the republican apathy and self confidence and poil the full narty vote. Speeches and parades at this late day are worthless for this purpose A penci and paper canvass should be made in every election district and an efficient com-mittee appointed to see that delinquent voters are orought to the polls. The democrats are working like beavers to poll their last vote and the republicans ought to stop talking stop burning torches and by organ and systematic effort get out their yote-both yote will be changed between now and election by the blare of brase bands the glare of forches or the iteration of stump oratory Neither wind nor fire is wanted in politics during the next ten days it is energetic work to get out a full vote. If we elect Harrison there will be plenty of time for the breezy or ator to raise the wind picnty of time for the boys to burn torches and explode gun powder and if Harrison is not elected, the republicants will have no disposition to make speeches or burn powder but will have plenty of time for tears which do not cost as nuch as torches as every men has a fount of tears of his own that he can pump dry at no cost to his pooket or the public So let us all stop the speeches and music both the band music and the chin music of

the platform and put the move such performances cost into organized work such performances of Oregon By the Satur the platform and put the money that all such performances cost into organized work to get out the vote of Oregon. By the Satur day night before election the republican county committees ought to have a thorough canvass completed of every precinct and arrangements provided for polling the full party vote Speech making parades and cheers are worso than useless at this hour What is wanted is work the still quiet What is wanted.

In the vote on election day than a regiment of the vote on election day than a regiment of ros ing orators and braying brass bands. This work ought not to have been left to the eleventh hour but it is not too late to do it if the local party committees to do it if the local party committees and in the local party committees are rail of the army and navy the supreme eral, but the president, as commander in the of the army and navy the supreme which of the army and navy the supreme What is wanted is work the still, quiet hard thankless work that does more to swell

FOLITICS AND THE VETERANS

Democrat c papers all over the country are suggest g to the old soldiers of the Union that the Grand Army of the Republic is not a political organization and should therefore keep out of politics

These papers are not telling the Grand These papers are not tening the uranu Army anything new when they are saying that the organization is not a political one but they are impudent when they add the inference that the victorians individually handle the papers are the politics. Of all many should take no part in politics of all men they have the most perfect right to look to the interests of the government the integrity of which they saved To svoid any grounds for the imputation that the Grand Army is a tolitical organization, it has repeatedly, during the last two years, refused to pay its devoirs to Mr Cleveland when he has attempted to come before their encampments for the sole purpose of political effect. He has had no expectation that the Grand Army would support him, but the scheme of himself and heutenants has been to tanial ize the veterans into action which would justify the assertion that it is a political organization in the interest of the republican

The old soldiers have no reason to love The one Scidiers have no reason to love Mr Clevelard and very few of them have any use for luminary way. This organization however is too exalted in its aims to descend to the level of considering Mr Cleveland pointenly his party or their as prations but the members as individuals with all other of the veterans who do not helms to the organization reserve the right anton however is too exalted in its aims to descend to the level of considering Mr Cleveland politically his party or their as pirations but the members as individuals with all other of the vetarans who do not belong to the organisation, reserve the right of absaints political freedom, and very tew of them will vote for a candidate who has been as palpably and parasitently hostile to them. Moreover, why should any of them

RETALIATION BY CHIVA

Our Chinese exclusion act, now in force is tantamount on our part to a declaration of non intercourse with China It is not sur prising to find that it is received as such in that country We have notice therefore that China does not want American goods

The list of our products to be excluded from China embraces all or nearly all things we send to that country. During the fiscal year ended June 33, 1887, our whole experts to China seasons and the fiscal seasons. to China were valued at \$6,240,026 The principal articles were cotton white goods and petroleum Of cotton white goods we sent to thin 78,601°0 jurid valued at \$5,181,050 and of petroleum 7,263,822 gallons valued at \$635 448

valued at \$635 448

Latterly we have been building up quite a flour tride with China This too will no doubt have to go Ratabation on the port of China is entirely justifiable. Noother course is left to her at all consistent with any kind of self respect. She should all of exter ill. Americans from her territories without delay

Of course we can do without the Chinese trade Our cotton manufacturers and petro-leum producers and wheat growers and milt ers and shippers can lose the trade and still live for it is only a small part of the who i trade of our country and jet there are those who will feel the loss of it. But the lotter of him Franc see can stand it. loss the whole of the six or seven millions annually and never feel it

WOOL IN AUSTRALIA

The wool product of Australia is more than double that of the United States, and is rap made a report to the state department at Washington on the last chp of that country which shows that on the first of April last Australia contained 98 462,038 sheep This is a gain of nearly 20 000 000 since 1885

By way of comparison it may be men-tioned that the number of sheep in the United States in 1887 was estimated at 44, 750,006, in European Russia in 1882 at 47 508, 966, and in the Argentine Republic in 1885 at 75 000 000 Australia thus has a long lead

Special efforts are being made by the Austrainan people to push their wools into all markets. The wool warshouses of Sydney are the greatest in the world. Sheep hus bandry, under the condutions that prevail in Australia promises extension to still preater proportions than now, and with the system prevailing there assures a fair profit. It is perfectly certain that if we adopt the policy that proposes free trade in wool, the Ameri can wool grower cannot compete, and sheep

A correspondent at Onkland Oregon, makes these inquiries

makes these inquiries.

How is it that George Washington is classed with Gaut Sterman and Sheridan? He was made general and commander-in chief of the arms of the colonies, Jine in 17 17d, and the latter held the grade of general under the present constitution which vests in the president the an thority of commander in chief of the arms. At Did Lincelin held any authority over Grout during the rebellion after he was commissional lieutenant general?

3d When Grant was promoted to general on its Sherman to lieutening specially if war had been declared against the Linted States would not Grant have ranked over sherman in active service?

4th Would the president still have been com

Washington was appointed to the rank of general by congress in 1799 but never as-sumed the position Lincoln by virtue of bis office of course held the same authority bis office of course held the same authority over Grant after he was made heutenant general that he held before Grant could not hang the meanest describer in his army if the president of the United States saw in the U terfere so often that Gen Slocum always hastened the execution of deserters. One of Jancoln's famous orders which he wrote with his own hand was that relieving Mo Clellan from command, and he could have removed Grant by similar order at any time. The war powers of the president of civic and military executive of the nation could have exercised his discretion as to whether he would place Grant in active comsind seep the seed of the selection day. If Mr. Harrison is elected our state would feel rather cheap to be found with our majority of June out down one-half simply for the lack of putting in our work for thirty days before election where it work for thirty days before election where it may be supported to the most good.

It was the vote in the close state of Or It was the vote in the cose state of Orgon in 1-76 not in Colorido that cheed Hayes over fiden. The electory of Colorido in 1876 were chosen by the legislature. In Oregon in 1876 the majority for Hayes was but 537 in a total vote of 29.86. The vote of Nevida in 1876 was all o very close Hayes getting 1675 majority in a total vote of 19.39! In Florida Hayes had but 926 majority in a vote of 66.7.2. In South Carolina the majority for Hayes was but 364 in a fotal vote of 182.778.

At a veteran soldiers' reunion in Indiana s few days ago one of the old boys' created quite a sensation by declaring that he wis inclined to vote against Harrison because that gentleman was not a friend to the poor in in Upon inquiry as to how this could be he re-plied that although Harrison, at the begin ning of the war had a lucrative law practice and a fair income he went into the army and did his own fighting instead of paying a poor man to go as his substitute

The Waitsburg Times claims that Allen's majority in Washington territory will be 3000, and asks that the prediction be filed away for future reference It is probably such opinions as this which lead Mr. Voorhees Mr Allen's opponent, to remark that the only thing back of an editor's pencil is not brains but muscle." It would seem that, from the statement of the Times votes which represent both muscle and brains are with the editors in the contest

In view of Wr Thurman's peech at Cincinnation Thursday, in which he essayed to quote though actually misquoted the Dec-laration of Independence to prove that his furty abothed lavery and always was the black main a best friend it is interesting to read this from a speech he delivered at Manelse d O Jinnary 21 1468

of all the delusibus I have eyer known the idea of political equality between the white and black rates seems to me the greatest. It is impossible that the race to which we belong the submit to negro dominution it is impossible that so inferior a rate as the integro can compete with the witte man in the austiness, much less the politics, of the country.

Certain Essiern journals are saying that the British government should be requested to recill Lord Suckville West on the ground that his letter is an insult to the people of the United States. It is not really an insult all know that Great Britain desires the election of Cleveland and West's letter is only an expression of that desire. But at any rate there is no need of recalling West at once. Better wait and see the re ult of the election If Cleveland is successful it will be very agreeable to West to stay and be will

Should be sown with grass seed. The blocks which should be sown with grass seed. The blocks were dug over and manured and seeded to grass. It last spring and by irrigating them a very good growth of grass was started. The bourth of July celebration held on the north block, before the grass had attained any height, it was thought would about kill it out but the tramping seems to have done it good except in a few spots where the ground is bare. If these were seeded now the grass would get a good start and next van meer the whole block would the alike. The south block has a most luxiriant growth and the grading cultivating and seeding of the plaza has greatly improved its up to rance.

A Discussed Minen.-W T Baxter of McM nuville has just returned from Alaska where he went some time ago on a prospectwhere he went some time ago on a prospecting four. He does not seem to be very favorably impressed with his experience. In placer mining and strongly advises Ore, on aims against going to those regions. He left McMiniville on the 24th of that March for the head of the Yukon and proceeded to the mouth of the river a distance of 2400 miles. We Baxter says that point is estimated to be the most profitable, so far as known for glicer noming in Aliska but it impossible to work more than two months in the veer owing to the heavy snowfalls cold and subsequent overflow of the banks of the river like est prospect he found was \$ 60 in six days work.

Mirray Still Aliva—Speaking of the

days work

Murary Still Alive—Speaking of the recent stabbing affair at Oregon City be tween I ou Hamulton and Shelley Murray, the Interprise of Thursday says—Loss of Blood caused Murray to grow weaker till Tue day when better symptoms were apprecible. Although he is yet at the point of deats the changes are rather favorable than otherwise—Hamilton was not arrested until next morning although he and the marshal were both about after the cutting was done At the trial Hamilton was placed under \$500 bones to await the action of the grand jury. He sow less in pail being unable to procure bonds.

IMPROVING THE TIME.—The republicans of Impoured the Time.—The republicans of Washington territory are alive to the Inct that but a short time remains in which to do the good strong work for the cause that should be done, and those of Vancouver and wich rity are particularly active as they have had some of the most prominent men of the territory to visit them and deliver speeches of sound republican principles. On next Monday night beginning at 7.30 o clock they will have another especially interesting meeting and such speakers as R. O. Dunbar of Goldendale J. F. Wilson of Seattle and Judge Turner will be present. All who can should be present.—Dealers are asking \$1 a.

A Good Price - Dealers are asking \$1 a A cool rate - Peaters are asking it a box for choice apples at retail. This is a creaty steep price for apples in Oregon at his season of the year. Of course only choice apples can command this price and out upples appear to be scarce in this mar-set owing probably to the product of so of our best orchards having been boxed or barreled for shipment.

THE REASON WHY-The cause of the troub o on G street is that there are no catch by as and therefore the water cannot drain by he and therefore the water cannot drain off. This is a singular and anomalous state of afform and the superintendent of streets should device some plan for remedying the content of the provided. A ferryboat would do if the cable did not interfere with the street cars. EMMA ABBOTT IN GRAND OPERA

The American songhird Limma Abbott The American songular Emma Abbott and her grand company of seventy five ar listes will certainty be proud of the flattering ownton which will lie tendered them by our must if and society people at the New Park theater text week. The popular songstress will certainly pack the theater at every perform once as our citizens are always glad to we conceller to I ordiand. The repertoire comprises the genrs of the lying stage.

Henry Weinhard and His Celebrated Beer Over a quarter of a century ago Henry Weinhard commenced the manufacture of the feer which has made his name famous throughout every section of the Northwest The beer manufactured by him is of such quality that it is recommended by physicians as a healthful bevirage and is regarded by business men profesional men and work ingmen as the only strictly pure unadulter at deer manufactured in this section of the country I is growth as a favorite is commensurate with the growth and development of this country. The output has enlarged from a mere beginning in 1862 to up words of 30 000 barries for this season's business. This rapid increase is occasioned solely because of its superiority. These is no question in the minds of lovers of good beer as to which is the best. Weinhard's seems to command the market. Henry Welnhard and Bis Celebrated Beer

INTRODUCTORY.

The reason that Seal Plush Garments have become popular is not only that they are beautiful, but because theoriginal makers of Sea. Plushes kept the quality of their goods up to a high standard of excellence. During the past season the markets have been flooded with poor, trashy Plushes, made to be used in very cheap (low priced) garments. Such goods are dear at any price. Much better buy a good woolen cloth garment than a poor Seal Plush one.

DEAL, OREIGLY & CO AT THE FAIR

It was not a surprise to unv one to learn that Deal O Radly & Co had received the grand gold medal for the best exhibit of stoves ranges etc. Any one at all conversant with the relative merits of the wares of Portland stovedealers would think it strange if this firm did not get the highest award. This makes three or four times they have carried off the highest prize. It seems useless for other firms to attempt to compete with their fine line of goods. Defeat could only be expected in any case, and therefore it is well to give up the heid to them as holding the first place in all things pertaining to stoves ranges thoware, table cullery, etc. An inspection of this fine stock at the northwest corner of become and Yambhit streets will convince any one that they are the leaders in their line of business.

WHAT THE MARQUIS SAYS

He Claims to Have Been Misrepresented in an

Interview

The Marquis of Queensberry has written a

letter to a citizen of Portland complaining that he was "misrepresented" in the report of an interview" published in The Oak CONIAN. He says he did say that he be-

leved the time would come when free trad-would be universal over the whole world, but did not say took help the nations that tried it first, or that he would not give a shilling for your industries were it adopted here.

Inil

Nor did he say that he intended to call on Freident Cicycland it Washington. He would be as unlikely to make that statement as he would be to say that he intended to call on the queen when he reached I ugl not. It may be added that the entire matter is of very trifling import mae but the rap retermost cirtuinly set down what he under tood the marques to have said during the interview.

Peopie s Journal (Dundee)
A great sensation has been created by Prest test
Cleveland's message, and if the policy which it
indicates be carried out it will produce almost as
much effect in this country as in America. The
tariff reform which the president recommends
goes as far, at least as the abolition or the reduction of the duties on faw materials. Should con
gress give effect to this proposal its immediate
result would be an enormous sumulus to English
industry.

As a rule the presidential contest has very little interest for the old world. On the present cots slon, however, an issue is involved which very closely concerns Europe, more particularly Great Britain Mr Cleveland has taken his stand on Britain Mr. Cleveland has taken his stand on free trude, and although the party managers have considerably planed down his platform, he is universally recognized in the states as pledged to in thate a new departure in fiscal policy. Nor can there be any doubt that he would act up to, this understan ling were he elected. The central issue of the contest lies between the maintenance of the present fiscal system intact sind its modification in the direction of free trade. And on that broad question Mr. Cleveland's cantidature miturally and increasarily carries English sympath. London Saturday Review

"The Scott Chinese exclusion bill was un doubtedly concocted in the democratic na tional committee of which Scott is a member. It is understood that it was not sub mitted to the secretary of state, but was to President Cleratand. It was introduced un doubtedly on the supposition that the republicans in the senate would not let it pass. The bill was rushed through the house with our reference to a committee and when it came to the senate Senator George of Massissipp! a democrat, tried to have it referred, but the republicans believed that the bill was a trick of the administration is to obtain political submitting ound determined to pisce the responsibility on the president When the president found that the republicans would not defeat the bill in the sanate Senator Gorman of Maryland a leading democrat, evidently acting under inspiration from the White house came into the senate and moved to refer the bill to a torn mittee. As the senate had already agreed to vote on the bill the motion was held to be out of order. The bill was then passed after which a motion was made to reconsider it nearly all the democratic voting for the motion while most of the republicans voted against it, and the bill was forced upon the administration by the republican senate. What is the sentiment of the people on the tariff question?

White the general impression provalls that our country is growing few people realize to our country is growing few people realize to whate extent. Perhaps the best gauge of the material progress of this section is the demand for improved machinery which has been unprecedentedly large the present season. A good idea of the strides which have been taken in this direction may be obtained by making a careful examination of the splendid display of Messrs Staver & Walker in the machinery hall at the Mechanics' fair Here will be found represented the very latest outcome of mechanical ingenity in every hranch including dairy machiners squrential implements also engines bodiers saw that and a host of specialities in the implement line of which this firm earry the largest and most varied steck on the Pacific count. Their display is both the machinery hall and the carriage department has been unquestionably the most attractive and interesting feature of the fair and speaks volumes for their energy and enterprise. the tariff question?

"The sentiment in the Western States as a rule, is not so strongly in favor of protection as in the manufacturing states but I believe that in every borthern state the tariff question is the controlling one and will largely increase the republicum majorities." PROSPECTS FOR A REPUBLICAN HOUSE,

"Do you think the stariff issue will so affect the vote this fall as to give the republicans the control of the house of representatives." If feel confident that the republicans will have a majority in the next house. If they do, and retain control of the senate and there is a republican president, North and South Dakots and Washington territory will be admitted as states of the Union, as the republican strength in congress will be largely increased. As long as the Solid South is in power in the house of representatives, no hardlory which is likely to make a republican which is likely to make a republicant which will be admitted."
